### **Independent Auditors' Report**

# The Honorable Mayor and Board of Trustees of the Village of Sleepy Hollow, New York

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Village of Sleepy Hollow, New York ("Village") as of and for the year ended May 31, 2016, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village, as of May 31, 2016, and

PKF O'CONNOR DAVIES, LLP

PKF O'Connor Davies, LLP is a member firm of the PKF International Limited network of legally independent firms and does not accept any responsibility or liability for the actions or inactions on the part of any other individual member firm or firms.

the respective changes in financial position, thereof, and the budgetary comparison for the General and Water Funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Emphasis of Matter

We draw attention to Note 2C and Note 3E in the notes to financial statements which disclose the effects of the Village's adoption of the provisions of Governmental Accounting Standards Board Statement Nos. 68 "Accounting and Financial Reporting for Pensions" and 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date". Our opinion is not modified with respect to this matter.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the schedules included under Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis (MD&A)
May 31, 2016

#### Introduction

The management of the Village of Sleepy Hollow offers this narrative overview and analysis of the financial activities of the Village for the fiscal year ended May 31, 2016 to readers of the Village's financial statements. It should be read in conjunction with the basic financial statements and the notes to the Village's financial statements which immediately follow this section, to enhance the understanding of the Village's financial performance.

### **Financial Highlights**

Key financial highlights for fiscal year 2016 are as follows:

- Net position may serve over time as a useful indicator of the Village's financial position. On the government-wide financial statements, the assets of the Village exceeded its liabilities at the close of the fiscal year 2016 by \$9,774,691. Of this amount, the unrestricted portion is (\$9,093,484) and net invested in capital assets is \$14,215,724. The restricted amount totals \$4,652,451. Of this amount, \$1,727,382 is solely to be used to alleviate impacts related to the Edge-on-Hudson project as specified in a Special Permit. The balance of \$2,925,069 is for use for the Water, Sewer, Parking and Special Purpose (Parks & Recreation Developer's Fund) funds and for future snow removal and debt service expenses.
- As of the close of the fiscal year, the Village's governmental funds (exclusive of the Capital Projects Fund) reported combined ending fund balances of \$8,116,158; an increase of \$3,675,283 from the prior year's fund balance of \$4,440,875.
  - Of this balance, \$2,521,579 or 31.1%, is unassigned for fiscal year 2016.
     Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.
  - The remainder of fund balance is either classified as Nonspendable, Restricted or Assigned to indicate that it is not available for new spending.
- The General fund balance increased by \$2,974,712 to \$4,734,488 from \$1,759,776. At the end of the fiscal years 2016 and 2015, unassigned fund balance for the General Fund was \$2,521,579 or 53.26% and \$1,124,441 or 6.43% respectively, of total General Fund expenditures and other financing uses. This indicates very strong growth in the unassigned fund balance for general activities of the Village.
- The Village retired \$1,150,000 of long-term debt. During the current fiscal year, the Village issued bond anticipation notes for Capital Projects of \$9,234,364.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Village's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the Village's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator as to whether the financial position of the Village is improving or deteriorating.

The statement of activities presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish the functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the Village include general government support, public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and interest.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into two categories: governmental funds and fiduciary funds.

### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains seven individual governmental funds: the General Fund, Water Fund, Parking Fund, Sewer Fund, Sanitation Fund, Special Purpose Fund and the Capital Projects Fund. The General, Water and Capital Projects funds are considered major funds and information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for these funds. The remaining funds are non-major and their information is aggregated and presented in a single column as other governmental funds.

Budgetary comparison statements are provided for the General Fund and Water Fund. Budgetary comparison statements have been provided for these funds within the basic financial statements to demonstrate compliance with the respective budgets.

### Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Village programs. The Village's fiduciary fund consists of an Agency Fund. Resources in the Agency Fund are held by the Village purely in a custodial capacity. The activity in this fund is limited to the receipt, temporary investment, and remittance of resources to the appropriate individual, organization, or government.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Other Information

Additional statements and schedules can be found immediately following the notes to the financial statements and include individual fund financial statements and schedules of "budget to actual" comparisons.

### **Government-wide Financial Analysis**

As noted previously, over a period of time net position may serve as a useful indicator of a government's financial position. At fiscal year end, May 31, 2016, the assets of the Village exceeded the liabilities by \$9,774,691.

The Village's total net position increased by \$1,292,982 for the year ended May 31, 2016, primarily due to several factors including recognition of deferred outflows of resources, deferred inflows of resources, and net pension liability related to the New York State and Local Retirement System ("NYSLRS") required under the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 68. The GASB is charged with developing the accounting rules that apply to governments. For the year ending May 31, 2016, the village had deferred outflows of resources of \$5,567,354, deferred inflows of resources of \$957,090 and a net pension liability of \$5,638,459 related to NYSLRS. In addition, the Village received \$1,727,382 in cash to be used to alleviate impacts related to the Edge-on-Hudson project as specified in a Special Permit.

#### **Governmental Activities**

For the fiscal years ended May 31, 2016 and 2015, revenues from governmental activities totaled \$23,823,004 and \$19,936,777, respectively. Tax revenues \$14,296,226 in 2016 and \$13,143,328 in 2015, comprised of real property taxes, other tax items and non-property taxes; represent the largest revenue source (60.0% in 2016 and 65.9% in 2015).

The largest components of governmental activities' expenditures are public safety (41.4% in 2016 and 40.8% in 2015), home and community services (17.4% in 2016 and 16.7% in 2015), general government support (15.4% in 2016 and 15.8% in 2015) and culture and recreation (11.6% in 2016 and 11.3% in 2015). Public safety includes police, fire and safety inspections. Home and community services include planning, refuse and garbage and shade tree costs. General government support reflects various administrative services including clerk, engineer, law, treasurer, justices and the Board of Trustees. Culture and recreation includes recreation administration, parks maintenance, general recreation, youth programs, public library and adult recreation.

### Financial Analysis of the Village's Funds

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Fund Balance Reporting

It is important to note that this year's financial statements again include the presentation of the Governmental Accounting Standards board ("GASB") Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions". GASB Statement No. 54 abandons the reserved and unreserved classifications of fund balance and replaces them with five new classifications: Non-spendable, restricted, committed, assigned and unassigned. An explanation of these classifications follows below:

<u>Nonspendable</u> – consists of assets that are inherently nonspendable in the current period either because of their form or because they must be maintained intact, including prepaid items, inventories, long-term portions of loans receivable, financial assets held for resale, and principal of endowments.

<u>Restricted</u> – consists of amounts that are subject to externally enforceable legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation.

<u>Committed</u> – consists of amounts that are subject to a purpose constraint imposed by a formal action of the government's highest level of decision-making authority before the end of the fiscal year, and that require the same level of formal action to remove the constraint.

<u>Assigned</u> – consists of amounts that are subject to a purpose constraint that represents an intended use established by the government's highest level of decision-making authority, or by their designated body or official. The purpose of the assignment must be narrower than the purpose of the General Fund, and in funds other than the General Fund, assigned fund balance represents the residual amount of fund balance.

<u>Unassigned</u> – represents the residual classification for the government's General Fund, and could report a surplus or deficit. In funds other than the General Fund, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

These changes were made to reflect spending constraints on resources, rather than availability for appropriations and to bring greater clarity and consistency to fund balance reporting. This pronouncement should result in an improvement in the usefulness of fund balance information.

### Governmental Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Village's financing requirements.

The Village's governmental funds reported ending fund balances of May 31, as follows:

| Fund                                | <br>2016                     | _  | 2015                   |
|-------------------------------------|------------------------------|----|------------------------|
| General<br>Water                    | \$<br>4,734,488<br>2,017,959 | \$ | 1,759,776<br>1,316,290 |
| Parking                             | 52,902                       |    | 87,542                 |
| Sewer<br>Sanitation                 | 604,892<br>47,802            |    | 625,661<br>(5,139)     |
| Special Purpose<br>Capital Projects | 658,115<br>(1,079,774)       |    | 656,745<br>(485,764)   |
| ouplium rojooto                     | \$<br>7,036,384              | \$ | 3,955,111              |

Exclusive of the Capital Projects Fund, the combined ending fund balance is \$8,116,158 of which \$2,521,579 is unassigned.

The General Fund is the primary operating fund of the Village. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$2,521,579, representing 53.3% of the total General Fund balance of \$4,734,488. When the fiscal year 2015-2016 General Fund budget was adopted, it anticipated that revenues would equal expenditures. Actual results of operations resulted in an increase in the fund balance of \$2,974,712. Revenues and other financing sources were \$19,205,075, which was \$2,547,174 more than the final budget. This increase was primarily due to a Special Permit fee received relating to a very large project and unbudgeted revenue received from an annual Tax Lien Sale. Expenditures and other financing uses were \$16,230,363, which was \$427,538 less than the final budget. This was primarily due to savings in the General government support, Public Safety and Employee Benefit lines.

The Capital Projects Fund has a restricted fund balance of \$(1,079,774). A majority of the capital projects have been financed by long term debt and grants as of May 31, 2016.

### **Capital Assets and Debt Administration**

### **Capital Assets**

The Village's investment in capital assets for governmental activities at May 31, 2016, net of accumulated depreciation, was \$27,910,152. This investment in capital assets includes land, construction-in-progress, buildings, land improvements, infrastructure (not all inclusive) and machinery and equipment.

Major capital asset activity during the current fiscal year included the following:

### **Capital Assets**

|                             | May 31,   |            |    |            |
|-----------------------------|-----------|------------|----|------------|
|                             | <u></u>   | 2016       |    | 2015       |
| <u>Asset</u>                |           |            |    |            |
| Land                        | \$        | 2,938,414  | \$ | 2,938,414  |
| Construction-in-Progress    |           | 1,232,683  |    | 334,286    |
| Buildings                   |           | 5,551,739  |    | 5,733,409  |
| Land Improvements           |           | 2,753,946  |    | 2,981,502  |
| Infrastructure              |           | 11,725,040 |    | 12,325,967 |
| Machinery and Equipment     |           | 3,708,330  |    | 3,857,925  |
| Total (net of depreciation) | <u>\$</u> | 27,910,152 | \$ | 28,171,503 |

### Long-Term Debt /Short-Term Debt

At the end of the current fiscal year, the Village had total bonded debt outstanding of \$12,750,000. As required by New York State Law, all bonds issued by the Village are general obligation bonds, backed by the full faith and credit of the Village.

### **Economic Factors and Next Year's Budgets and Rates**

We have seen continued increases in the cost of providing health insurance and retirement benefits to our employees over the last 3 years. Although retirement benefits should be decreasing over the next several years, these costs continue to put a strain on available Village resources. Luckily, we were able to continue to contribute to our fund balance this year due to revenues from an annual Tax Lien Sale and a Special Permit fee received relating to a very large project; as well as spending \$427,538 under budget.

The ongoing economic climate continues to have an impact on our local economy. Housing prices are slightly improving, new construction is still slow, and unemployment continues to reduce disposable incomes. With this in mind, the Village continually attempts to eliminate or reduce non-essential spending, while closely monitoring the costs of the programs that our residents rely on.

### **Requests for Information**

This financial report is designed to provide a general overview of the Village of Sleepy Hollow's finances. Questions and comments concerning any of the information provided in this report should be addressed to Sara A. DiGiacomo, Village Treasurer, Village of Sleepy Hollow, 28 Beekman Avenue, Sleepy Hollow, New York 10591.

Reconciliation of Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position Year Ended May 31, 2016

| Fund Balances - Total Governmental Funds  | \$ 7,036,384        |
|---|---------------------|
| Amounts Reported for Governmental Activities in the Statement of Net Position are Different Because:  |                     |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.   | 27,910,152          |
| Governmental funds do not report the effect of losses on refunding bonds and assets or liabilities related to net pension assets (liabilities) whereas these amounts are deferred and amortized in the statement of activities. |                     |
| Deferred amounts on pension assets (liabilities)  | 4,610,264<br>52,181 |
| Deferred amounts on refunding bonds   | 52,101              |
|   | 4,662,445           |
| Revenues in the statement of activities that do not provide current   |                     |
| financial resources are not reported as revenues in the funds.  | 470 577             |
| Real property taxes   | 179,577_            |
| Long-term liabilities that are not due and payable in the current   |                     |
| period are not reported in the funds.  Accrued interest payable   | (192,540)           |
| Bonds payable   | (12,804,473)        |
| Bond anticipation notes payable   | (446,476)           |
| Retirement incentives and other pension obligations   | (577,736)           |
| Net pension liability   | (5,638,459)         |
| Compensated absences  | (864,183)           |
| Other post employment benefit obligations payable   | (9,490,000)         |
|   | (30,013,867)        |
| Net Position of Governmental Activities   | \$ 9,774,691        |

Notes to Financial Statements May 31, 2016

### Note 1 - Summary of Significant Accounting Policies

The Village of Sleepy Hollow, New York ("Village") was established in 1874 and operates in accordance with Village Law and the various other applicable laws of the State of New York. The Village Board of Trustees is the legislative body responsible for overall operation. The Village Mayor serves as the chief executive officer and the Village Treasurer serves as the chief financial officer. The Village provides the following services to its residents: public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and general and administrative support.

The accounting policies of the Village conform to generally accepted accounting principles as applicable to governmental units and the Uniform System of Accounts as prescribed by the State of New York. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the Village's more significant accounting policies:

### A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government, which is the Village, b) organizations for which the Village is financially accountable and c) other organizations for which the nature and significance of their relationship with the Village are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth by GASB.

In evaluating how to define the Village, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the Village's reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, the following organization is related to the Village:

The Sleepy Hollow Local Development Corporation ("LDC") was created on September 18, 2014 as a local development corporation by the Village under Sections 102 and 1411 of the Not-For-Profit Corporation Law in order to relieve and reduce unemployment, promote and provide for additional and maximum employment, improve and maintain job opportunities, lessen the burdens of government and act in the public interest. The LDC is subject to the Public Authorities Accountability Act of 2005, as amended by Chapter 506 of the Laws of 2009 (collectively, the "PAAA") and shall comply with the PAAA, as set forth within the New York State Public Authorities Law. The LDC is managed by a Board of Directors that serves at the pleasure of the Village and therefore, the Village is considered able to impose its will on the LDC. The financial statements of the LDC have been reflected as a discretely presented component unit. Complete financial information can be obtained from:

Sleepy Hollow Local Development Corporation 28 Beekman Avenue Sleepy Hollow, New York 10591

### B. Government-Wide Financial Statements

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the Village as a whole. For the most part, the effect of interfund activity has been removed from these statements, except for interfund services provided and used.

Notes to Financial Statements (Continued) May 31, 2016

### Note 1 - Summary of Significant Accounting Policies (Continued)

The Statement of Net Position presents the financial position of the Village at the end of its fiscal year. The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods or services, or privileges provided by a given function or segment, (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment and (3) interest earned on grants that is required to be used to support a particular program. Taxes and other items not identified as program revenues are reported as general revenues. The Village does not allocate indirect expenses to functions in the Statement of Activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Fund Financial Statements

The accounts of the Village are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The Village maintains the minimum number of funds consistent with legal and managerial requirements. The focus of governmental fund financial statements is on major funds as that term is defined in professional pronouncements. Each major fund is to be presented in a separate column, with non-major funds, if any, aggregated and presented in a single column. Fiduciary funds are reported by type. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the pages following, which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental activities column of the government-wide presentation. The Village's resources are reflected in the fund financial statements in two broad fund categories, in accordance with generally accepted accounting principles as follows:

### **Fund Categories**

a. <u>Governmental Funds</u> - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following are the Village's major governmental funds.

General Fund - The General Fund constitutes the primary operating fund of the Village and is used to account for and report all financial resources not accounted for and reported in anther fund.

Special Revenue Funds - Special revenue funds are established to account for the proceeds of specific revenue sources that are restricted, committed or assigned to expenditures for specified purposes other than debt service or capital projects. The major special revenue fund of the Village is as follows -

### Note 1 - Summary of Significant Accounting Policies (Continued)

Water Fund - used to record the water utility operations of the Village, which renders services on a user charge basis to the general public.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of major capital facilities and other capital assets.

The following are the Village's non-major governmental funds:

### Special Revenue Funds:

Parking Fund - used to account for the operation and maintenance of the public parking spaces and lots in the Village.

Sewer Fund - used to record the sewer operations of the Village, which renders services on a user charge basis to the general public.

Sanitation Fund - used to record the sanitary operations of the Village, which renders services on a user charge basis to the general public.

Special Purpose Fund - used to account for assets held by the Village in accordance with the terms of a trust agreement.

b. <u>Fiduciary Funds</u> (not included in Government-wide Financial Statements) - Fiduciary Funds are used to account for assets held by the Village in an agency capacity on behalf of others. The Agency Fund is used to account for employer payroll tax withholdings and various other deposits that are payable to other jurisdictions or individuals.

### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets less current liabilities) or economic resources (all assets and liabilities). The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. The Agency Fund has no measurement focus but utilizes the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when

Notes to Financial Statements (Continued)
May 31, 2016

### Note 1 - Summary of Significant Accounting Policies (Continued)

they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes are considered to be available if collected within sixty days of the fiscal year end. A ninety day availability period is generally used for revenue recognition for most other governmental fund revenues. Property taxes associated with the current fiscal period as well as charges for services and intergovernmental revenues are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Fees and other similar revenues are not susceptible to accrual because generally they are not measurable until received in cash. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are accrued when the expenditure is made.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to retirement incentives and other pension obligations, net pension liability, compensated absences and other post employment benefit obligations are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

### **Component Unit**

The LDC is accounted for on the flow of economic resources measurement focus. This measurement focus emphasizes the determination of net income. With this measurement focus, all assets and liabilities (whether current or non-current) associated with the operation of these activities are included on the statement of net position. Operating statements present increases (revenues) and decreases (expenses) in net total position. The LDC is accounted for on the accrual basis of accounting, Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time liabilities are incurred.

# E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Fund Balances

### **Deposits and Risk Disclosure**

**Cash and Equivalents** - Cash and equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and certificates of deposit with original maturities of less than three months.

The Village's deposits and investment policies are governed by State statutes. The Village has adopted its own written investment policy which provides for the deposit of funds in FDIC insured commercial banks or trust companies located within the State. The Village is authorized to use demand deposit accounts, time deposit accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury, U.S. Agencies, repurchase agreements and obligations of New York State or its political subdivisions.

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by Federal deposit insurance. The Village has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligations that may be pledged as collateral. Such obligations include, among other instruments, obligations of the United States and its agencies and obligations of the State and its municipal and school district subdivisions.

Notes to Financial Statements (Continued)
May 31, 2016

### Note 1 - Summary of Significant Accounting Policies (Continued)

Custodial credit risk is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. GASB Statement No. 40 directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either uncollateralized, collateralized by securities held by the pledging financial institution or collateralized by securities held by the pledging financial institution's trust department but not in the Village's name. The Village's aggregate bank balances that were not covered by depository insurance were not exposed to custodial credit risk at May 31, 2016.

The Village was invested only in the above mentioned obligations and, accordingly, was not exposed to any interest rate or credit risk.

**Taxes Receivable** - Real property taxes attach as an enforceable lien on real property as of June 1st and are levied and payable in two installments due in June and December. The Village has the responsibility for the billing and collection of its own taxes. The Village also has the responsibility for holding and collecting tax liens.

**Other Receivables** - Other receivables include amounts due from other governments and individuals for services provided by the Village. Receivables are recorded and revenues recognized as earned or as specific program expenditures are incurred. Allowances are recorded when appropriate.

**Due From/To Other Funds** - During the course of its operations, the Village has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of May 31, 2016, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

**Inventories** - The inventories reflected in the financial statements of the Water Fund represent materials and supplies for general use and are valued at cost on a first-in, first-out basis. These inventories consist primarily of items held for consumption. The cost is recorded as inventory at the time individual inventory items are purchased. The Village uses the consumption method to relieve inventory. Reported inventories are equally offset by nonspendable fund balance in the fund financial statements, which indicates that they do not constitute "available spendable resources" even though they are a component of current assets.

**Prepaid Expenses/Expenditures** - Certain payments to vendors reflect costs applicable to future accounting periods, and are reported as prepaid items using the consumption method in both the government wide and fund financial statements. Prepaid expenses/expenditures consist of insurance and other costs which have been satisfied prior to the end of the fiscal year, but represent items which have been provided for in the subsequent year's budget and/or will benefit such periods. Reported amounts in governmental funds are equally offset by nonspendable fund balance in the fund financial statements, which indicates that these amounts do not constitute "available spendable resources" even though they are a component of current assets.

Capital Assets - Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items) are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of

Notes to Financial Statements (Continued)
May 31, 2016

### Note 1 - Summary of Significant Accounting Policies (Continued)

one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives is not capitalized.

Land and construction-in-progress are not depreciated. Property, plant, equipment and infrastructure of the Village are depreciated using the straight line method over the following estimated useful lives.

| Class                   | Life<br>in Years |
|-------------------------|------------------|
| Buildings               | 25-50            |
| Land improvements       | 20               |
| Infrastructure          | 20-65            |
| Machinery and equipment | 5-15             |

The costs associated with the acquisition or construction of capital assets are shown as capital outlay expenditures on the governmental fund financial statements. Capital assets are not shown on the governmental fund balance sheet.

**Unearned Revenues** - Unearned revenues arise when assets are recognized before revenue recognition criteria has been satisfied. In government-wide financial statements, unearned revenues consist of amounts received in advance and/or revenue from grants received before the eligibility requirements have been met.

Unearned revenues in the fund financial statements are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The Village has reported unearned revenues in the General Fund of \$19,326 for miscellaneous items, \$395,943 in the Capital Projects Fund for contributions from a local developer that are not considered earned until certain project milestones have been met, and \$1,080 for parking permits for the coming fiscal year in the Parking Fund. These amounts have been deemed to be measurable but not "available" pursuant to generally accepted accounting principles.

**Deferred Outflows/Inflows of Resources** - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

The Village reported deferred outflows of resources of \$52,181 for a deferred loss on refunding bonds in the government-wide Statement of Net Position. This amount results from the difference in

Notes to Financial Statements (Continued)
May 31, 2016

### Note 1 - Summary of Significant Accounting Policies (Continued)

the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

The Village reported deferred inflows of resources of \$179,577 for real property taxes in the General Fund. This amount is deferred and recognized as revenue in the period that the amounts become available.

The Village also reported deferred outflows of resources and deferred inflows of resources in relation to its pension obligations. These amounts are detailed in the discussion of the Village's pension plans in Note 3E.

**Long-Term Liabilities** - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as Capital Projects Fund expenditures.

**Compensated Absences** - The various collective bargaining agreements provide for the payment of accumulated vacation and sick leave upon separation of service. The liability for such accumulated leave is reflected in the government-wide Statement of Net Position as current and long-term liabilities. A liability for these amounts is reported in the governmental funds only if the liability matured through employee resignation or retirement. The liability for compensated absences includes salary related payments, where applicable.

**Net Position** - Net position represent the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Village or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position on the Statement of Net Position includes, net investment in capital assets, restricted for snow removal, debt service, future capital projects and special revenue funds. The balance is classified as unrestricted.

**Fund Balances** - Generally, fund balance represents the difference between current assets and deferred outflows of resources and current liabilities and deferred inflows of resources. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Village is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables, advances) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Notes to Financial Statements (Continued) May 31, 2016

### Note 1 - Summary of Significant Accounting Policies (Continued)

Restricted fund balance is reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification is used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law of the State of New York.

Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. The Village Board of Trustees is the highest level of decision making authority for the Village that can, by the adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, these funds may only be used for the purpose specified unless the Village Board of Trustees removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the Village Board of Trustees.

Assigned fund balance, in the General Fund, represents amounts constrained either by policies of the Village Board of Trustees for amounts assigned for balancing the subsequent year's budget or the Village Treasurer for amounts assigned for encumbrances. Unlike commitments, assignments generally only exist temporarily, in that additional action does not normally have to be taken for the removal of an assignment. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities and deferred inflows of resources, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets and deferred outflows of resources.

In order to calculate the amounts to report as restricted and unrestricted fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Village's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Village's policy to use fund balance in the following order: committed, assigned and unassigned.

### F. Encumbrances

In governmental funds, encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations, is generally employed as an extension of formal budgetary integration. The Village has not implemented an encumbrance system.

Notes to Financial Statements (Continued)
May 31, 2016

## Note 1 - Summary of Significant Accounting Policies (Continued)

#### G. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## H. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is January 23, 2017.

## Note 2 - Stewardship, Compliance and Accountability

#### A. Budgetary Data

The Village generally follows the procedures enumerated below in establishing the budgetary data reflected in the financial statements:

- a) On or before March 20th, the budget officer submits to the Board of Trustees a tentative operating budget for the fiscal year commencing the following June 1st. The tentative budget includes the proposed expenditures and the means of financing.
- b) The Board of Trustees, on or before March 31st, meets to discuss and review the tentative budget.
- c) The Board of Trustees conducts a public hearing on the tentative budget to obtain taxpayer comments on or before April 15th.
- d) After the public hearing and on or before May 1st, the Trustees meet to consider and adopt the budget.
- e) Formal budgetary integration is employed during the year as a management control device for General, Water, Parking, Sewer and Sanitation funds.
- f) Budgets for General, Water, Parking, Sewer and Sanitation funds are legally adopted annually on a basis consistent with generally accepted accounting principles. The Capital Projects Fund is budgeted on a project basis. An annual budget is not legally adopted by the Board for the Special Purpose Fund.
- g) The Village Board has established legal control of the budget at the function level of expenditures. Transfers between appropriation accounts, at the function level, require approval by the Board of Trustees. Any modifications to appropriations resulting from increases in revenue estimates or supplemental reserve appropriations also require a majority vote by the Board.

Notes to Financial Statements (Continued) May 31, 2016

## Note 2 - Stewardship, Compliance and Accountability (Continued)

h) Appropriations in General, Water, Parking, Sewer and Sanitation funds lapse at the end of the fiscal year, except that outstanding encumbrances are reappropriated in the succeeding year pursuant to the Uniform System of Accounts promulgated by the Office of the State Comptroller.

Budgeted amounts are as originally adopted, or as amended by the Board of Trustees.

## B. Property Tax Limitation

The Village is permitted by the Constitution of the State of New York to levy taxes up to 2% of the five year average full valuation of taxable real estate located within the Village, exclusive of the amount raised for the payment of interest on and redemption of long-term debt. In accordance with this definition, the maximum amount of the levy for the 2016 fiscal year was \$19,442,510 which exceeded the actual levy by \$7,596,221.

On June 24, 2011, the Governor signed Chapter 97 of the Laws of 2011 ("Tax Levy Limitation Law"). This applies to all local governments.

The Tax Levy Limitation Law restricts the amount of real property taxes that may be levied by a Village in a particular year. The original legislation that established the Tax Levy Limitation Law was set to expire on June 16, 2016. Chapter 20 of the Laws of 2015 extends the Tax Levy Limitation Law through June 2020.

The following is a brief summary of certain relevant provisions of the Tax Levy Limitation Law. The summary is not complete and the full text of the Tax Levy Limitation Law should be read in order to understand the details and implementations thereof.

The Tax Levy Limitation Law imposes a limitation on increases in the real property tax levy. subject to certain exceptions. The Tax Levy Limitation Law permits the Village to increase its overall real property tax levy over the tax levy of the prior year by no more than the "Allowable Levy Growth Factor," which is the lesser of one and two-one hundredths or the sum of one plus the Inflation Factor; provided, however that in no case shall the levy growth factor be less than one. The "Inflation Factor" is the quotient of: (i) the average of the 20 National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the coming fiscal year minus the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelvemonth period ending six months prior to the start of the prior fiscal year, divided by (ii) the average of the National Consumer Price Indexes determined by the United States with the result expressed as a decimal to four places. The Village is required to calculate its tax levy limit for the upcoming year in accordance with the provision above and provide all relevant information to the New York State Comptroller prior to adopting its budget. The Tax Levy Limitation Law sets forth certain exclusions to the real property tax levy limitation of the Village, including exclusions for certain portions of the expenditures for retirement system contributions and tort judgments payable by the Village. The Village Board may adopt a budget that exceeds the tax levy limit for the coming fiscal year, only if the Village Board first enacts, by a vote of at least sixty percent of the total voting power of the Village Board, a local law to override such limit for such coming fiscal year.

Notes to Financial Statements (Continued)
May 31, 2016

## Note 2 - Stewardship, Compliance and Accountability (Continued)

## C. Cumulative Effect of Change in Accounting Principle

For the year ended May 31, 2016, the Village implemented GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date". These statements seek to improve accounting and financial reporting by state and local governments for pensions by establishing standards for measuring and recognizing liabilities, deferred outflows/inflows of resources and expenses/expenditures. These statements also require the identification of the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to the periods of employee service. As a result of adopting these standards, the government-wide financial statements reflect a cumulative effect for the change in accounting principle of \$497,214.

#### D. Expenditures in Excess of Budget

The following functional expenditure categories exceeded their budgetary provisions by the amounts indicated:

|                             | P            | \mount |
|-----------------------------|--------------|--------|
| Sewer Fund                  |              |        |
| Home and community services | <u>\$ · </u> | 28,133 |

## E. Capital Projects Fund Deficit

The deficit of \$1,079,774 in the Capital Projects Fund arises because of the application of generally accepted accounting principles to the financial reporting of such funds. The proceeds of bond anticipation notes issued to finance construction of capital projects are not recognized as an "other financing source". Liabilities for bond anticipation notes payable are accounted for in the Capital Projects Fund. Bond anticipation notes are recognized as revenue only to the extent that they are redeemed. The deficit will be reduced and eliminated as bond anticipation notes are redeemed from interfund transfers from other governmental funds or converted to permanent financing.

#### Note 3 - Detailed Notes on All Funds

#### A. Taxes Receivable

Taxes receivable at May 31, 2016 consisted of the following:

| Taxes Receivable                  |               |
|-----------------------------------|---------------|
| Current                           | \$<br>285,814 |
| Overdue                           | <br>64,884    |
|                                   | <br>250,000   |
|                                   | 350,698       |
| Allowance for uncollectible taxes | <br>(171,121) |
|                                   | \$<br>179,577 |

Taxes receivable are offset by deferred tax revenues of \$179,577, which represents an estimate of the receivable which will not be collected within the first sixty days of the subsequent year.

Notes to Financial Statements (Continued)
May 31, 2016

## Note 3 - Detailed Notes on All Funds (Continued)

#### B. Due From/To Other Funds

The balances reflected as due from/to other funds at May 31, 2016 were as follows:

| Fund   | Due<br>From                                    | Due<br>To   |
|--|--|---|
| General<br>Water<br>Capital Projects<br>Non-Major Governmental | \$<br>2,113,674<br>224<br>3,304,935<br>137,451 | \$<br>3,076,709<br>1,462,049<br>15,078<br>1,002,448 |
| •  | \$<br>5,556,284                                | \$<br>5,556,284                                     |

The outstanding balances between funds result mainly from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system and 3) payments between funds are made.

## C. Capital Assets

Changes in the Village's capital assets are as follows:

|  | <br>Balance<br>June 1, 2015                              |           | Additions                                | <u>D</u> | eletions              |           | Balance<br>May 31,<br>2016                         |

## D. Short-Term Capital and Non-Capital Borrowings

The schedule below details the changes in short-term capital and non-capital borrowings.

| Purpose                | Original<br>Issue<br>Date | Maturity<br>Date | Interest<br>Rate | Balance<br>June 1,<br>2015 | New<br>Issues | Redemptions | Balance<br>at<br>May 31, 2016 |
|------------------------|---------------------------|------------------|------------------|----------------------------|---------------|-------------|-------------------------------|
| Capital Borrowings     |                           |                  |                  |                            |               |             |                               |
| Various                | 11/30/2012                | 11/23/2016       | 0.84 %           | \$ 610,000                 | \$ -          | \$ 20,000   | \$ 590,000                    |
| Various                | 11/26/2013                | 11/23/2016       | 0.84             | 6,456,901                  | -             | 45,318      | 6,411,583                     |
| Various                | 11/24/2014                | 11/23/2016       | 0.84             | 1,367,890                  | _             | 123,386     | 1,244,504                     |
| Various                | 11/23/2015                | 11/23/2016       | 0.84             |                            | 988,277       |             | 988,277                       |
|                        |                           |                  |                  | \$ 8,434,791               | \$ 988,277    | \$ 188,704  | \$ 9,234,364                  |
| Non-Capital Borrowings |                           |                  |                  |                            |               |             |                               |
| Judgments and claims   | 11/26/2013                | 11/23/2016       | 0.84             | \$ 29,417                  | \$ -          | \$ 7,354    | \$ 22,063                     |

Liabilities for bond anticipation notes are generally accounted for in the Capital Projects Fund. Bond anticipation notes issued for judgments or settled claims are recorded in the fund paying the claim. Principal payments on bond anticipation notes must be made annually. State law requires that bond anticipation notes issued for capital purposes or judgments be converted to long-term obligations generally within five years after the original issue date. However, bond anticipation notes issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made.

Interest expenditures of \$84,642 were recorded in the fund financial statements in the General Fund. Interest expense of \$91,916 was recorded in the government-wide financial statements.

May 31, 2016\_\_\_\_\_

## Note 3 - Detailed Notes on All Funds (Continued)

Interest expenditures of \$426,775 were recorded in the fund financial statements in the funds indicated below. Interest expense of \$429,681 was recorded in the government-wide financial statements.

| Fund                                 | Amount         | <u> </u>                 |
|--------------------------------------|----------------|--------------------------|
| General<br>Water<br>Parking<br>Sewer | 16,            | 051<br>113<br>216<br>395 |
|                                      | <u>\$ 426,</u> | <u>775</u>               |

#### **Bond Anticipation Notes Payable**

The Village issued a bond anticipation note for \$900,000 on November 30, 2011 for various improvements and judgments and claims. The Village, pursuant to GASB guidance, has not recorded these liabilities in the fund financial statements since it has demonstrated ability to consummate refinancing. The ability to consummate refinancing was evidenced by obtaining permanent financing or a renewal of the notes prior to the issuance of the financial statements. The remaining balance of \$446,476 is due on November 23, 2016, with interest at 1.25%.

Interest expenditures/expenses of \$5,824 were recorded in the fund financial statements in the General Fund and in the government-wide financial statements.

#### **Retirement Incentives and Other Pension Obligations**

The State Legislature enacted Chapter 260 of the Laws of 2004. This chapter authorized local governments to amortize the portion of their respective 2005 contribution which exceeded 9.5% of covered payroll, over a ten year period, commencing in 2006. The amortization payment would include interest at 5% per annum. The Village elected to amortize the maximum allowable ERS and PFRS contributions which aggregated \$26,677 for ERS and \$100,920 for PFRS. The ERS amount required to be amortized for the Village during 2016 was \$3,455 including interest and was charged to expenditures in the General Fund. The PFRS amount required to be amortized during 2016 was \$13,069, including interest. This amount was charged to expenditures in the General Fund. These payments fulfilled the obligation due on the amortization of the 2005 contribution.

The 2010 State-wide Retirement Incentive Program enacted under Chapter 105 of the Laws of 2010 authorized local municipalities to offer employees a retirement incentive. Under Part A of the plan, eligible employees would be granted one month of additional service credit for each year of service up to 36 years. The estimated cost of the program will be approximately 60% of the employee's final average salary. The Village elected to pay this obligation over a five year period with interest. The ERS amount required to be amortized for the Village during 2016 was \$38,279 including interest and was charged to expenditures in the General Fund. These payments fulfilled the obligation due on the amortization of the 2010 contribution.

Notes to Financial Statements (Continued)
May 31, 2016

## Note 3 - Detailed Notes on All Funds (Continued)

The State Legislature enacted Chapter 57 of the Laws of 2010. This chapter authorized local governments, at their option, to amortize a portion of their ERS and PFRS contributions beginning in 2014. The maximum amortization amount each year going forward will be determined by the difference between each employer's effective contribution rate as compared to the System's overall graded rate. The amortized amounts are to be paid in equal annual installments over a ten year period, although amounts may be prepaid at any time. Interest will be charged at rates which approximate a market rate of return on taxable fixed rate securities of a comparable duration and will be adjusted annually. The Village elected to amortize the maximum allowable ERS and PFRS contributions in the amount of \$715,756, requiring annual installments of \$88,711. Balances due at May 31, 2016 totaled \$577,736.

#### **Payments to Maturity**

The annual requirements to amortize all outstanding bonded debt as of May 31, 2016, including interest payments of \$2,881,333 are as follows:

| Year Ending | Bonds            | Paya | able      |    | Retirement Incentives and Bond Anticipation notes Other Pension Obligations |    |         |    |                 |    |          |    | Total      |    |           |  |

The above general obligation bonds, bond anticipation notes and retirement incentives and other pension obligations are direct obligations of the Village for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the Village.

## **Compensated Absences**

Pursuant to the terms of existing collective bargaining agreements, certain employees are permitted to accumulate unused sick and personal leave. The maximum accumulation varies with each agreement. Upon termination, employees will be compensated for such accumulated leave at varying amounts according to the terms of each agreement. The value of the compensated absences has been reflected in the government-wide financial statements.

#### **Pension Plans**

New York State and Local Retirement System

The Village participates in the New York State and Local Employees' Retirement System ("ERS") and the New York State and Local Police and Fire Retirement System ("PFRS") which are collectively referred to as the New York State and Local Retirement System ("System"). These are cost-sharing, multiple-employer defined benefit pension plans. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund ("Fund"), which was established to hold all

Notes to Financial Statements (Continued)
May 31, 2016

## Note 3 - Detailed Notes on All Funds (Continued)

net assets and record changes in plan net position. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The Comptroller is an elected official determined in a direct statewide election and serves a four year term. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law ("NYSRSSL"). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Village also participates in the Public Employees' Group Life Insurance Plan, which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The System is noncontributory except for employees who joined after July 27, 1976, who contribute 3% of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010, who generally contribute between 3% and 6% of their salary for their entire length of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31. The employer contribution rates for the plan's year ending in 2016 are as follows:

|      | <u>Tier/Plan</u> | Rate   |
|------|------------------|--------|
| ERS  | 3 A14            | 18.8 % |
|      | 4 A15            | 18.8   |
|      | 5 A15            | 15.5   |
|      | 6 A15            | 10.5   |
| PFRS | 2 384D           | 24.7 % |
|      | 3 84D            | 14.3   |

At May 31, 2106, the Village reported a liability of \$2,497,702 for its proportionate share of the net pension liability of ERS and a liability of \$3,140,757 for its proportionate share of the net pension liability of PFRS. The net pension liability was measured as of March 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Village's proportion of the net pension liability was based on a computation of the actuarially determined indexed present value of future compensation by employer relative to the total of all participating members. At March 31, 2016, the Village's proportion was .0155617% for ERS and .1060784% for PFRS. For ERS this was a decrease of .0003267% and for PFRS this was an increase of .0064902% from the proportion measured as of March 31, 2015.

For the year ended May 31, 2016, the Village recognized pension expense in the government-wide financial statements, inclusive of retirement incentives and other pension obligations of \$839,285 for ERS and \$1,132,532 for PFRS. Pension expenditures of \$721,175 for ERS and \$857,882 for PFRS were recorded in the fund financial statements and were charged to the following funds:

| share of contributions Village contributions subsequent to the  |    | -                                   |                                     | 82,417       |                                      | 8,094               |    | 103,767                          |
| measurement date  |    | 104,702                             |                                     |              |                                      | 151,820             |    |                                  |
|   | \$ | 2,265,160                           | \$                                  | 378,478      | \$                                   | 3,302,194           | \$ | 578,612                          |

The \$104,702 and \$151,820 reported as deferred outflows of resources related to ERS and PFRS, respectively, resulting from the Village's accrued contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended March 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ERS and PFRS will be recognized in pension expense as follows:

| Year Ended March 31,                 | <b></b> | ERS                                      | PFRS |   |  |  |  |
|--------------------------------------|---------|--|------|---|--|--|--|
| 2017<br>2018<br>2019<br>2020<br>2021 | \$      | 446,841<br>446,841<br>446,841<br>441,457 | \$   | 606,224<br>606,224<br>606,224<br>581,717<br>171,373 |  |  |  |

The total pension liability for the March 31, 2016 measurement date was determined by using an actuarial valuation as of April 1, 2015, with update procedures used to roll forward the total pension liabilities to March 31, 2016. The total pension liabilities for the March 31, 2015 measurement date were determined by using an actuarial valuation as of April 1, 2014. Significant actuarial assumptions used in the April 1, 2015 valuation were as follows:

Notes to Financial Statements (Continued)
May 31, 2016

## Note 3 - Detailed Notes on All Funds (Continued)

Actuarial cost method Entry age normal

Inflation 2.5%

Salary scale 3.8% in ERS, 4.5% in PFRS indexed by service

Investment rate of return 7.0% compounded annually net of investment

Investment rate of return 7.0% compounded annually, net of investment

expenses, including inflation

Cost of living adjustments 1.3% annually

Annuitant mortality rates are based on the April 1, 2005 – March 31, 2010 System's experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014.

The actuarial assumptions used in the April 1, 2015 valuation are based on the results of an actuarial experience study for the period April 1, 2005 - March 31, 2015.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice ("ASOP") No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for equities and fixed income as well as historical investment data and plan performance. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2015 and 2014 are summarized below.

| Asset Type  | Target<br>Allocation                       | Long-Term<br>Expected<br>Real Rate<br>of Return                                 |
|---|--|---|
| Domestic Equity International Equity Private Equity Real Estate Absolute Return Strategies Opportunistic Portfolio Real Assets Bonds and Mortgages Cash Inflation Indexed Bonds | 38 %<br>13<br>10<br>8<br>3<br>3<br>18<br>2 | 7.30 %<br>8.55<br>11.00<br>8.25<br>6.75<br>8.60<br>8.65<br>4.00<br>2.25<br>4.00 |
|   | 100_%                                      |   |

The discount rate used to calculate the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Financial Statements (Continued)
May 31, 2016

## Note 3 - Detailed Notes on All Funds (Continued)

The following presents the Village's proportionate share of the net pension liability calculated using the discount rate of 7.0%, as well as what the Village's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.0%) or 1 percentage point higher (8.0%) than the current rate:

|   | 1%<br>Decrease<br>(6.0%) |           | /         | Current<br>Assumption<br>(7.0%) | 1%<br>Increase<br>(8.0%) |           |  |
|---|--------------------------|-----------|-----------|---------------------------------|--------------------------|-----------|--|
| Village's proportionate share of the ERS net pension liability (asset)  | \$                       | 5,632,136 | \$        | 2,497,702                       | \$                       | (150,761) |  |
| Village's proportionate share of the PFRS net pension liability (asset) | \$                       | 7,015,211 | <u>\$</u> | 3,140,757                       | \$                       | (106,875) |  |

The components of the collective net pension liability as of the March 31, 2016 measurement date were as follows:

|   | ERS       |                                    |    | PFRS                             | Total |                                    |  |
|---|-----------|------------------------------------|----|----------------------------------|-------|------------------------------------|--|
| Total pension liability Fiduciary net position                    | \$        | 172,303,544,000<br>156,253,265,000 | \$ | 30,347,727,000<br>27,386,940,000 | \$    | 202,651,271,000<br>183,640,205,000 |  |
| Employers' net pension liability                                  | <u>\$</u> | 16,050,279,000                     | \$ | 2,960,787,000                    | \$    | 19,011,066,000                     |  |
| Fiduciary net position as a percentage of total pension liability |           | 90.7%                              |    | 90.2%                            |       | 90.6%                              |  |

Employer contributions to ERS and PFRS are paid annually and cover the period through the end of the System's fiscal year, which is March 31<sup>st</sup>. Retirement contributions as of May 31, 2016 represent the employer contribution for the period of April 1, 2016 through May 31, 2016 based on prior year ERS and PFRS wages multiplied by the employers' contribution rate, by tier. Retirement contributions to ERS and PFRS for the two months ended May 31, 2016 were \$104,702 and \$151,820, respectively.

#### Voluntary Defined Contribution Plan

The Village also offers a defined contribution plan to all non-union employees hired on or after July 1, 2013 and earning at the annual full-time salary rate of \$75,000 or more. The employee contribution is between 3% and 6% depending on salary and the Village will contribute 8%. Employer contributions vest after 366 days of service. No current employees participated in this program.

#### Other Post Employment Benefit Obligations

The Village provides certain health care benefits for retired employees. The various collective bargaining agreements stipulate the employees covered and the percentage of contribution. Contributions by the Village may vary according to length of service. The cost of providing post employment health care benefits is shared between the Village and the retired employee.

Notes to Financial Statements (Continued)
May 31, 2016

## Note 3 - Detailed Notes on All Funds (Continued)

Substantially all of the Village's employees may become eligible for these benefits if they reach normal retirement age while working for the Village. The cost of retiree health care benefits is recognized as an expenditure as claims are paid within the governmental funds.

The Village's annual other postemployment benefit ("OPEB") cost (expense) is calculated based on the annual required contribution, ("ARC"), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. GASB Statement No. 45 establishes standards for the measurement, recognition and display of the expenses and liabilities for retirees' medical insurance. As a result, reporting of expenses and liabilities will no longer be done under the "pay-as-you-go" approach. Instead of expensing the current year premiums paid, a per capita claims cost will be determined, which will be used to determine a "normal cost", an "actuarial accrued liability", and ultimately the ARC. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. In addition, the assumptions and projections utilized do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The actuarial calculations of the OPEB plan reflect a long-term perspective.

The Village is required to accrue on the government-wide financial statements the amounts necessary to finance the plan as actuarially determined, which is equal to the balance not paid by plan members. Funding for the Plan has been established on a pay-as-you-go basis.

The assumed rate of increase in postretirement benefits is as follows:

|      | Assumed  |
|------|----------|
| Year | Increase |
| 4    | 0.500/   |
| I    | 9.50%    |
| 2    | 9.00%    |
| 3    | 8.50%    |
| 4    | 8.00%    |
| 5    | 7.50%    |
| 6    | 7.00%    |
| 7    | 6.50%    |
| 8    | 6.00%    |
| 9    | 5.50%    |
| 10+  | 5.00%    |

The amortization basis is the level percentage of payroll method with an open amortization approach. The actuarial assumptions included a 4.5% discount rate. The Village currently has no assets set aside for the purpose of paying postemployment benefits. The actuarial cost method utilized was the projected unit credit method.

## Note 3 - Detailed Notes on All Funds (Continued)

## F. Revenues and Expenditures

#### Interfund Transfers

Interfund transfers are defined as the flow of assets, such as cash or goods and services, without the equivalent flow of assets in return. The interfund transfers reflected below have been reflected as transfers.

|  | Transfers In |                    |    |                     |           |                          |    |                               |  |
|--|--------------|--------------------|----|---------------------|-----------|--------------------------|----|-------------------------------|--|
| Transfers Out                              |              | General            |    | Capital<br>Projects |           | lon-Major<br>vernmental  |    | Total                         |  |
| General<br>Water<br>Non-Major Governmental | \$           | 882,105<br>143,200 | \$ | 188,704<br>-<br>-   | \$        | 199,686<br>-<br><u>-</u> | \$ | 388,390<br>882,105<br>143,200 |  |
|  | \$_          | 1,025,305          | \$ | 188,704             | <u>\$</u> | 199,686                  | \$ | 1,413,695                     |  |

Transfers are used to 1) move funds from the Water and non-major governmental funds to fulfill commitments for General Fund expenditures and 2) move funds earmarked in the General Fund to fulfill commitments for non-major governmental funds and Capital Projects Fund expenditures.

#### G. Net Position

The components of net position are detailed below:

Net Investment in Capital Assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

Restricted for Snow Removal - the component of net position that reflects funds restricted for snow removal pursuant to General Municipal Law.

Restricted for Debt Service - the component of net position that reports the difference between assets and liabilities with constraints placed on their use by Local Finance Law.

Restricted for Future Capital Projects – the component of net position that reflects funds restricted for use pursuant to the agreement made for development of the land formerly occupied by the General Motors Corporation.

Restricted for Special Revenue Funds - the component of net position that represents funds restricted for specific purposes under New York State law or by external parties and/or statutes.

*Unrestricted* - all other amounts that do not meet the definition of "restricted" or "net investment in capital assets".

Notes to Financial Statements (Continued)
May 31, 2016

#### Note 3 - Detailed Notes on All Funds (Continued)

Certain elements of fund balance are described below. Those additional elements, which are not reflected in the Statement of Net Position but are reported in the governmental funds balance sheet, are described below.

Inventories in the Special Revenue - Water Fund have been classified as nonspendable to indicate that a portion of fund balance is not "available" for expenditure because the asset is in the form of commodities. The Village anticipates utilizing them in the normal course of operations.

Advances to Other Funds has been classified as nonspendable to indicate the long-term nature of funds advanced to the Sanitation Fund. These funds do not represent "available spendable resources: even though they are a component of current assets.

Prepaid Expenditures has been established to account for employee retirement and other costs paid in advance. The amount is classified as nonspendable to indicate that these funds are not "available" for appropriation or expenditure even though they are a component of current assets.

Assignments of fund balance are not legally required segregations but represent intended use for a specific purpose. At May 31, 2016, the Village Board has assigned amounts to be appropriated for future court awarded property tax refunds.

Unassigned fund balance in the General Fund represents amounts not classified as nonspendable, restricted or assigned. Unassigned fund balance in the Capital Projects Fund represents a deficit fund balance.

#### Note 4 - Summary Disclosure of Significant Contingencies

#### A. Litigation

There are currently pending tax certiorari proceedings, the results of which could require the payment of future tax refunds by the Village if existing assessment rolls are modified based on the outcome of the litigation proceedings. However, the amount of these possible refunds cannot be determined at the present time. Any payments resulting from adverse decisions will be funded in the year the payment is made.

Various legal actions are pending and are in process against the Village in the ordinary course of business. It is not possible to state the ultimate liability, if any, in these matters. In management's opinion, the ultimate resolution of these actions if the plaintiffs were to prevail in the litigations would not have a material adverse effect on the financial position of the Village.

#### Contingencies

The Village participates in various Federal grant programs. These programs may be subject to program compliance audits pursuant to the Single Audit Act. Accordingly, the Village's compliance with applicable grant requirements will be established at a future date. The amount of expenditures, which may be disallowed by the granting agencies cannot be determined at this time, although the Village anticipates such amounts, if any, to be immaterial.

Notes to Financial Statements (Concluded) May 31, 2016

## Note 4 - Summary Disclosure of Significant Contingencies (Continued)

#### Risk Management

The Village maintains various liability insurance policies to provide against potential losses. The general liability policy provides coverage up to \$2 million and the Village has an umbrella policy with \$10 million of coverage. In addition, there is a law enforcement liability policy providing coverage of \$2 million. Settled claims resulting from these risks have not exceeded commercial insurance coverage for any of the past three fiscal years. The Village purchases conventional medical and workers' compensation coverage.

#### **Subsequent Events**

The Village, on October 13, 2016 issued \$2,775,000 in Public Improvement Refunding Serial Bonds to refund \$2,680,000 of currently outstanding serial bonds with interest at 2.0% maturing in August 2024.

The Village, on November 22, 2016, issued a Bond anticipation note in the amount of \$3,011,920 bearing interest at 1.29%. The note matures on November 22, 2017 and was issued to refinance \$3,036,230 of currently outstanding notes and provide \$288,915 of new money after payment of \$313,225.

The Village, on November 22, 2016, issued \$4,198,400 in public improvement bonds to permanently finance \$1,351,753 in outstanding notes maturing November 23, 2016 and provide \$2,953,465 in new money financing various improvements to the Village including the water system, street lighting and firefighting apparatus, after payment of \$106,818.
